

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER  
MONITORING REQUIREMENTS NOT MET FOR**

**SAINT MARYS, WV3303704**

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 1/1/2022 and 12/31/2022, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

**What should I do?**

*There is nothing you need to do at this time.*

The table below lists the required monitoring and the compliance period.

Required Monitoring	Compliance period
03, MONITORING, MAJOR NITRITE RESULTS NOT REPORTED	1/1/2023-12/31/2023

**What happened? What is being done?**

Entry point was not put on the chain of custody or the lab report. I have resubmitted the revised lab report to the state with hopes of getting the violation rescinded. All required testing was sampled for in 2022 and can be viewed on the 2022 Consumer Confidence Report on the City of St. Marys Website.

For more information, please contact Chuck Carouthers at 304-684-2401

Or by mail: 418 Second Street St. Marys, WV 26170 Care of Chuck Carouthers.
